

Concerned about overseeing stores or branches scattered across cities and regions?

**Look no further!**

We produced software that effectively manages HSE (and more!) with minimal input.

# Occupational Safety Consultancy services

Strategies for Multi-Location Businesses and Chain Business Management

GERMANY'S TOP OCCUPATIONAL SAFETY SERVICES PROVIDER

## How Do We Help Our Clients Reach Long-Lasting Safety?

### **HSC Nord helps you navigate the compliance maze.**

Bespoke consultancy and audit service, training courses, health and safety risk assessment — all supported by HSE software — minimize human error and guarantee you're fully compliant and safe.

## What Are The Benefits Of Working With Us?

### **HSC Nord works with you rather than for you.**

Our experts will assist you in protecting your organization, establishing a positive safety culture, and maintaining all health and safety documentation. When choosing Nord for Safety consulting, you'll simplify end-to-end management and quickly adjust to market trends.

- **Avoid substantial investment**
- **Fulfill legal requirements**
- **Prevent hazards**
- **Reduce administrative burden**
- **Empower and upskill your employees**
- **Embrace digital transformation**

## How Do We Assist in Managing Multiple Business Locations?

### **Businesses looking towards maximizing the potential for expansion should consider the benefits provided by our Software.**

If you have successfully scaled your organization to multiple business units, branch offices, and stores, we'll help you implement organizational management tools. HSC Nord brings you the IT infrastructure capable of handling the growing amount of information and correspondence from various places.

The purpose of company growth is to boost profitability. Therefore, your focus must stay on growth strategies without increasing the time and effort required to run an organization with several locations. A way to remain coordinated so locations can all thrive simultaneously requires technology - Software that can streamline operations and improve efficiency.

## What Consultancy Services Do We Offer?

Discover HSC Nord's all-in-one business solutions.

### Nationwide safety-related support

Nord consultants resolve critical challenges in safety culture, ensuring healthier employees and a secure working environment. For our clients, we create a customized HSE framework according to DGUV. You receive site visits, risk assessments, consultancy, employee training, testing, certification, and more.

### Occupational Medicine

HSC Nord delivers professional clinical care and counsel to employers and employees in matters of prevention and assessment of work-related health issues. The focus is on maintaining and promoting employees' well-being through preventive care, medical support, and employee-specific health programs.

### HSE Management Software

HSCplatform is a modular compliance automation software designed to assist our clients with meeting regulatory and inter-company requirements. It includes My Portal — a web-based company hub for employees. From vacation requests to leave approvals, risk assessments to eLearning, employee surveys to reporting and HR — Maintain your documentation, train employees, and stay up-to-date with legislation changes.

Have you received mail from the employers' liability insurance association or the authorities?  
We will help you directly and comfortably.
